DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Barney, U. S. Patent 343,688. Barney teaches a collar having a display surface adapted to receive a slip of paper having indicia thereon. The collar also has an upper portion with an upper lip **B** and a lower portion with a lower lip **B** defining a slot formed there-between for receiving the slip of paper **C**.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Barney, U. S. Patent 343,688. Since the applicant has not disclose that forming the upper and lower annular piece of thermoplastic material solves any stated problem or is for any stated purpose, it appears that constructing the annular

piece of any suitable material as taught by Barney would perform equally well in retaining the display slip of paper..

Allowable Subject Matter

5. Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 12, 17, 18 and 20 are allowed.

Response to Arguments

7. Applicant's arguments with respect to claim 7 have been considered but are moot in view of the new ground(s) of rejection.
